

GPS

With increasing use of technology, GPS comes as a bliss when it comes to road navigation. You can download GPS and enter the destination name.

Phone Mount

While using the GPS on phone it is important to have a right view of it. Phone mount helps you use GPS more efficiently and safely while driving.

Vomit Bags

Always keep some vomit bags in your car to take care of the intoxicated passenger you pick up. You don't want to clean puke or have that residual smell in your car!

Water Bottle Filled with Soap and Latex Gloves

If you are unlucky and somebody pukes in your car, you need to clean up the mess before the vomit sticks to the fabric of your seats. In such cases, you will need soapy water and latex gloves.

A Charger for the Passengers

How do you ensure that the passengers know you are thinking of them? One way would be to invest in a car charger with multiple USB ports.

Charger for Personal Phone

Always carry a personal charger. You may be on roads for a very long time and at any time you may require your phone. It is always essential to have a good power back up.
